

MONSTER CRANE

Based on the SK200 Monster Bug, the new unit is capable of **towing 3 trailers of up to 56T**, without the need for additional RRV vehicles. The vehicle also features a **GKD system**, giving the machine tandem lift capability.

The Monster Crane requires **no outriggers** meaning full lift and carry duties are available on rail, preventing potential damage lineside, with the ability to **travel under live OLE**.
