

# KOMATSU PC110

The Komatsu PC110, **designed and utilised for UTX (Under Track Crossings) based work** due to its versatility, is suited to an abundance of attachments and buckets. The Komatsu PC110 can **work under live OLE, with towing of loads permitted**. With zero tailswing, the PC110 can turn in its own footprint-ideal for tunnel works.

This RRV is also fitted with an **automatic hydraulic trailer park system**, provided at both ends of the excavator.
