

## **COVID-19 Business Update - 01.04.2020**

'Despite these challenging times, at TXM Plant, we continue to provide our usual reliable service and support to our customers, and I would like to personally thank all our staff and colleagues across the industry who are working hard to create a safe environment for us all.

Like most companies, we've adopted new ways of working in every part of our business; this has allowed us to maintain our full operational capability.

We're in constant discussion with our customers to introduce new and modified methods of working in both planning and delivery to ensure work is performed safely, all Government guidelines are adhered to, and that we provide the best protection for our staff and colleagues.'

Thank you all for your support,

Brian Reynolds, Chief Executive Officer
