

COVID-19 Update – 02.11.2020

Over the weekend, the Prime Minister announced a new four-week lockdown, which will come into force on Thursday 5th November, where tougher restrictions come into effect.

The Railway Network plays an essential part in **keeping Britain connected**. Throughout COVID-19, the Government has looked to the Construction and Infrastructure sector to keep the country moving and encourages continued working throughout this period.

For TXM Plant, we will continue to operate a business as usual approach and remaining fully operational. We have been here before, and TXM and the Industry are now far better prepared, having developed methods and practices through the last 7-months.

We appreciate that news of a further lockdown can be unsettling. Please keep yourself and your families safe and thank you all once again for your support throughout these very challenging times.

Thank you all for your support,

Brian Reynolds, Chief Executive Officer
