

TXM Plant Any Line Open (ALO) Working Supplementary Conditions

EXPLANATORY NOTE: The purpose of these Supplementary Conditions is, partly, to raise awareness of the Hirer's responsibilities for the Safe Use of Rail Plant for ALO Working and partly to define contractually the extent of the Owner's and Hirer's responsibilities as between themselves.

- TXM is acting as an agent in producing ALO documents, working under the client's instruction and accepts no liability for any subsequent loss or damage.
- The ALO documents must be adopted / authorised by the client.
- The ownership, methodology and any legal responsibility for the planning and execution of ALO works associated with the ALO document, remains with the client at all times.
- Under request TXM can supply ALO Coordinators, but this will be under a labour only agreement and all relevant competency checks will be the responsibility of the client along with the performance of safety critical works.
- Any site documentation for the ALO Coordinators must be in the client's format and the responsibility for supplying and collation for audit purpose will lie with the client.
- Once the ALO plan has been adopted and approved any changes onsite must be completed and approved by the clients ALO Responsible Manager and will not fall into TXM's remit.
